## Join Freedom Road

---

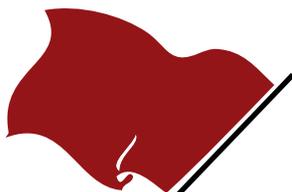

The Freedom Road Socialist Organization organizes to make revolution—to turn this system upside down and put the working class in power. We are opposed to exploitation, discrimination, and oppression. We hold that the rich class of people who run the economy and government of this country are unfit to rule. We support all movements that challenge their power and privilege. We want to replace capitalism with socialism—the rule of the working class. We want what the current system cannot offer—equality, peace, and justice.

## An additional level of Membership

---

The FRSO is creating a new level of membership, a second level of membership that is different from the cadre members. The cadres make the FRSO run and are often leaders in the mass movements with lots of responsibilities. The members represent the FRSO on a day-to-day basis in the factories, the unions, the movements, and the streets. Members participate in the work of the organization without having to serve as full-time organizers.

***“We want what the current system cannot offer — equality, peace, and justice!”***

## What can you do as a Member?

---

Members of the Freedom Road Socialist Organization are active and organize in the trade unions, low-income communities, oppressed nationality movements, amongst students and youth, and in other people’s movements. We sell and distribute Fight Back! at work, in the community, at places of worship, and on campuses. FRSO members bring their co-workers, neighbors, friends and family to protests and get them to sign petitions and participate in building the movement for social change. Members organize and promote Fight Back! and FRSO forums for political discussion and fundraising. FRSO members donate their time and money.

## FRSO Membership Responsibilities

---

Being a member comes with the responsibility to understand and defend the views of the FRSO. We are pro-worker and pro-union, we one-sidedly advocate for the working class. We oppose the racism and national oppression that Black, Chicano, and other nationalities experience. We support people’s movements in other countries that want independence from U.S. imperialism. We support other countries’ right to be free and to build socialism. We support equal rights and women’s liberation. The FRSO supports gay, lesbian, bi-sexual,

and transgender struggles. We want fairness and full equality for immigrants. Members support the political views of the FRSO and express their opinions in discussions and debates. Members support the democratic decisions of the FRSO leadership. We expect the most of our members. Our activists show the greatest respect for the working class and other people active for social change.

New members will complete the application form and pay yearly dues. In most places, members will meet with the FRSO once a year. In some places, FRSO members will be required to attend up to four yearly meetings, studies, programs or events. Members are expected to accept the FRSO Unity Statement and general political line. Members will be consulted on their views and the political line of the FRSO.
