Trump has wasted no time in volleying attack after attack on the people and our movements. He is coming after democratic rights that have been on the books for years, and gains hard-won through decades of struggle, including birthright citizenship afforded by the Fourteenth Amendment and the right to an abortion or free gender expression. The U.S./Israel genocide in Palestine continues.

His racist, misogynistic and homophobic "Make America Great Again" platform takes real problems caused by billionaires—such as soaring grocery costs, which will get even worse with tariffs—and pins the blame on the working class and oppressed peoples of the U.S. and abroad. Meanwhile, he carries out the wishes of billionaires like Elon Musk to fire federal workers and eliminate social services. He promised many racist and reactionary attacks on the campaign trail, and he is trying to fulfill them.

Trump launched a war on immigrants in this country. He declared a state of emergency on the U.S./Mexico border. ICE agents are carrying out raids and are deployed all over the country. People who came here to find jobs, flee the poverty created by U.S. foreign policy and provide for their children are being seized, deported to prison camps, and permanently separated from their families.

Similarly, he has embarked on a campaign to erase trans people. Trans girls are now banned from their sports teams, and Trump is trying to ban gender-affirming healthcare for trans youth. His supporters, who spent years passing abortion bans and attacks on women, are now speedily writing and passing legislation that will criminalize providing gender-affirming healthcare to trans kids or even being a parent or teacher who supports them.

The good news? There is widespread resistance and the time to act is now. Freedom Road Socialist Organization's approach is to make this country ungovernable. At schools, we are organizing students, faculty and workers to demand that their universities do not comply with newly authorized ICE operations and declare themselves as sanctuary schools. In cities, we are organizing our communities to rise up and demand that mayors, city councils and public officials reject Trump and interference from his federal agencies. In places where we have Republican governors who are happily contributing to Trump's work, such as Ron DeSantis in Florida, Jeff Landry of Louisiana, or Kim Reynolds in Iowa, we are taking the fight directly to them. In workplaces and unions, we are determined to show a spine and wage campaigns against bosses and employers who are emboldened by Trump's pro-big business agenda.

We aren't scared, and we aren't in mourning. We are spoiling for a fight. And we are looking for activists who want to fight for the long haul. Capitalism, the same system that produced Trump and all the ills he represents, will continue to deepen poverty, bring oppression, and more wars. By building a fight against Trump, we can beat back the attacks and win.

By joining the FRSO, you can fight for a new system and build a movement that will put political power in the hands of the working class in the U.S.—a system called socialism. Together, we will win!
