

STOP THE U.S.-ISRAEL WAR ON IRAN!

Statement by the Freedom Road Socialist Organization

The United States and Israel are waging a war on Iran. It is a war that is unjust and unprovoked. There have been widespread civilian casualties in Tehran and other cities, including reports of 85 schoolchildren dead in Minab.

This is a war that the U.S chose. Trump walked away from negotiations, then enlisted apartheid Israel, and now, bombs and missiles are raining down on schools and TV stations. Iran has every right to respond.

This year comes in a context. The decline of U.S. imperialism is accelerating. Trump is trying to preserve the dying U.S. empire, and control of the Middle East is a part of that project. Last year the U.S. and Israel waged a failed 12-day war that was meant to break Iran.

Now they are back again for another try. Along with his partner in crime Benjamin Netanyahu, Trump will face more defeat and failure – if not sooner, then later. Either way they will meet the fate of the paper tigers that have gone before them.

Iran is charting an independent course. It stands at the center of an axis of resistance that includes the progressive, patriotic forces of Palestine, Yemen, Lebanon and Iraq. The free people of the Middle East won't live under U.S. domination. They are determined to end the genocidal occupation of the Zionists. So, the defenders of empire will have their hands full.

Here in the U.S., progressives and revolutionaries need to go all out, uniting all who can be united to end the war on Iran. What the U.S. and Israel are doing to Iran is crime, and it needs to be judged accordingly.

Trump is now talking about regime change. The truth of the matter is that we do need a regime change – a regime change in Washington DC. As we oppose the war on Iran, and build a broad front against Trump, we can and will make the U.S. ungovernable.
