

# **BUILD AN ORGANIZATION THAT IS *SERIOUS ABOUT SOCIALISM***

Capitalism is a sick and dying system, and FRSO is organizing to bring it to an end. We fully understand that words alone will not do that—this country needs a revolution. This is the project that FRSO is committed to. We organize in the streets, on the shop floors, and our ranks are growing every day.

Now is the moment to take the step towards a bright future. Help build the organization that will take capitalism down.
